

Preface

Princess Becky must by now have realized that she has courted the wrong frog. She kissed him expecting a prince, instead, she awakened the Marquis de Sade. Felipe J-cqu-s, in a consort with Council House directors, authored most of the perjured evidence that Judge Becker used to support her opinion.

Judge Becker must feel grateful for such a staunch ally. She knowingly affirmed manufactured evidence and validated *ad hominem* and unfounded accusations written or suborned by Felipe J-cqu-s, Stephen M-tch-ll, Lynn W-rtn-k, and other Council House directors.

Higher courts with ethical standards will know how to sort the sheep from the goats then reverse the previous decisions. Unfortunately, that will not bring back the people who have died or rehabilitate the elderly people whom Council House managers and their thugs have abused.

Source

Consider the source when reading the following rants. First read Felipe J-cqu-s's "credentials" and "confession" at [*Noblesse Oblige*].

He spread the following message across the Internet by email to celebrate what he perceives as his appellate victory. Then he assaulted an elderly woman because she dissented. Send comments to [*Becky@ContraCabal.org*] for publication in [*Beckys' Boutique*].

Assault

Elder abuse resumed at Council House within hours of the court posting its opinion on its web site (14 Jun 04). It involved another violent assault upon a dissenting tenant that required police intervention.

The desk officer at the precinct told her that they had not kept a record when she tried to obtain a copy of the police report - a common practice when tenants complain about assault and harassment by Council House thugs. He said: "If you are not happy you move out".

She claims that a police officer previously suggested that she carry mace to protect herself after suffering many similar assaults. She now has a pro bono lawyer.

Police officers do file reports when Stephen (aka Stefan) A. M-tch-ll, Council House administrator, makes false and misleading charges against tenants to punish them for dissenting. Then, both SPD and City of Seattle attorneys withhold copies of those documents when they receive requests under the Public Disclosure Act. [*Elder Abuse - Preface*]

Croak

FJ-04-0615-0000. You, like all the other uncritical encomiasts of Paul Trummel who used the Internet to support his dubious assertions, fabrications, distortions, manifest errors, equivocations, scurrility, falsehoods and outright defamations, now have to remain silent in order to veil your embarrassment and your self-righteous complacency.

The Court of Appeals of Washington State has, by its rendering, downgraded ContraCabal.org, Paul Trummel's web site, to a cesspool of verbose stupidity where self-flattering incompetents - who refuse to answer to higher standards of moral accountability - can freely bathe their delusions.

Because the Court has said everything that needs to be said about that infamous Limey, Paul Trummel's supporters - people who live inside a social-cultural bubble of weak intellectualism and who at some deep level remain inaccessible to reason - may read the Court's decision but, because nothing else can be said in his defense, are now condemned to remain unvoiced, unwritten and wordless.

The so called "Internet Media" with its lack of an ethical spine - but filled with an outrageous and self-serving moral sense - granted this sociopath a totally undeserved empathy, an empathy that gave this amoral man free rein to abuse, offend, assault, attack and harm innocent people. This is what can be expected from the marginally literate people that represent the vast majority of this group. This while the general media remained indifferent - and conveniently neutral - to the evident suffering and distress he caused with his lies, absurd prevarications, obvious homophobia and flagrant anti-Semitism.

With an ostentatious display of self-importance journalist associations, writers unions and assorted organizations - essentially megalomaniacs with delusions of grandeur - joined the chorus made of self-congratulatory illusionists with faulty pretensions of intellectualism. Under the guise of protecting the First Amendment in their attempt to defended the indefensible these groups succeeded only in insulting the US Constitution by trying to rob it of its moral content.

Paul Trummel is a cunning man, but cunning is the intelligence of the foolish and the tool of the malevolent. He has now switched his tactics and transformed himself from a legalistic buffoon into a cyber-stalker and cyber-terrorist and enlarged the field of his victims to the families of those he attacked in the past. Still pursuing the shadow of a journalist he never became, Paul Trummel uses his Press Card to haunt and to bully innocent people and sees his web site as a monument to his egocentric fantasies.

Paul Trummel - a man unable to live by the rules of decency and common sense - with his obsessive hostility towards everyone is nothing more than an engaging tale of hubristic self-deception, unfortunately a self-deception shared by so many. I wish you all serenity with your own conscience.

J-cqu-s then sent the following message to Paul Trummel.

J-cqu-s, M-tch-ll and several other Council House directors, have written hundreds of letters in a similar vein during the past three years. They sent them to Trummel, media, his professional associates, his friends and colleagues, also to government agencies as false and misleading reports.

Typically, they made unsupported and unfounded allegations to character assassinate him then disseminated them by mail, email, and Internet. Then they coerced gullible elders to perjure themselves by using those statements in declarations that they filed with the court.

Ex parte (communicating in secret with bias), they gave copies of undeclared statements and accusations to Judge Doerty who entered selected items, and copied part of what they posted on the Internet, into evidence without allowing cross-examination or a rebuttal.

FJ-04-0619-2045. So here you are. Looking stupid. What a loser. And you are not alone. All you admirers here at Council House look the same. You should see poor Pola, she looks like a Bulgarian cow wondering about her bareness, intellectual and physical bareness that is. Like you, she has trouble hiding her Euro-trashness. Fakes like you and her, Euro-scum really, in the end are always exposed for what they truly are. Mental deficient morons from the old country. She looks so beaten, poor cow. About an half-hour ago I had the pleasure to celebrating your defeat on her face. She threatened me with mace and then called the police.

It took all of two minutes for the cops to realize that she, like you, is insane. No they did not fill a report so don't waist your time looking for one. As you can see your commedia buffone still goes on in this geriatric paradise. Ditto for Gilda, her fatness is weighting on her and as for you Kaffir, he looks really down also. Poor guy, bet on the wrong horse. I understand that. Gambling is my thing.

Until now those dim witted idiots were able to intimidate others with intimations of the consequences to be suffered by Council House and its residents should you win in the Court of Appeals. I am proud to say that I was practically the only one here that knew that you had no chances at all of winning. How did I knew that? Simply put, I saw immediately that your physical and mental posturing was a poor cover for your madness. And theirs.

Like you they strive to project a persona which is not there. Like you they are forgeries, mental and intellectual forgeries. It is a shame that Victor is no longer here so I could have more fun with that simpleton, another piece of Euro-trash. Not the last one alas, we still have Pola and her big Bulgarian tits to contend with.

As for the few African-Americans in Council House that fell for your stupidity I feel sorry for them. But they were born stupid, grew up to stupid and will die stupid. They are the ones that give a bad name to their ethnicity. Did I forget to mention Gene A-try? What for! She personifies the

ghetto mentality as no other here at Council House. For the likes of her, everything is a black or white thing. Reason is not part of her vocabulary. By the way, say hello to Leon Harris, for me, that consummate jerk may resent if I had omitted to mention him.

But enough about the local morons. How are you feeling? How it feels to lose a fight so throughly? Because Limey, you lost big. Real big. Are you calling the media at your rescue and hearing the sound of a dead silence? All those Amicus Curiae were for naught. Embarrassing isn't? Any how your latest postings in Contracabal show that you knew what was coming down the pike. So you turned against the judges. There are limits to stupidity but, as we all have learned, yours is limitless.

Now I sit and wait for your next move, me and the 34 affidavits I gathered from university professors, deans, lawyers, Assistant District Attorneys, business associates, wives, former landlords, etc. People that you have victimized in your past incarnations. Those affidavits were saved specially for that and believe me when I say that in Court they will be devastating.

Now it is 10 third in the evening, well past my bed time, but don't worry I will be around, and who knows, I may be able to piss on your grave.
