

Judge James A. Doerty, Superior Court, State of Washington, has assumed the powers and responsibilities reserved for the legislature in addition to those granted to him as a judge. He has redefined legal interpretation and construction by merging them. In a similar way he has merged ethics and morals apparently for political expediency. Consequently, he functions more as an out-of-control oligarch than a judge. By that, he denies due process of law on a variety of nebulous grounds.

The Constitution of the United States, an instrument of government and supreme law, prescribes the nature, functions, and limits of government. It incorporates amendments that control a system of fundamental laws and principles that have embodied rights and marked fair legal process since 1789. Yet, Doerty, has consistently denied due process of law by abrogating constitutional rights. In particular, he has denied the right to: timely notice; prepare a defense; confront accusers; cross-examine witnesses; legal counsel; and, impartial and unbiased hearings.

Civil rules do not allow arbitrary or general denials (denying all allegations in a complaint). This applies especially when the complainant declares a readiness to verify the allegations under an oath. Civil Rule 8 permits general denial only when the judge intends in good faith to controvert all the formal assertions of fact. Doerty does not controvert all the averments (declarations and assertions) in the complaints as the law requires. Instead, he arbitrarily rejects or accepts them to suit his own predisposition.

Doerty follows a procrastination principle that denies or postpones due process of law. He uses kill-the-messenger techniques that delay justice. He abuses the law meant to rectify unlawful practices and indulges in the same patterns and practice of unethical behavior that the law proscribes. The public failed abysmally in its attempt to establish an honest judiciary when it elected The Honorable James (Jiminy) A. Doerty. The people who have written to Doerty and to [Jiminy's Journal](#) agree with that evaluation.

*Judge James (Jiminy) A. Doerty deleted information from his web site when the going got rough. Admire him for censoring himself under his recent finding that abridged the First Amendment to the US Constitution. However, he did not jail himself for publishing the censored material as he does to his victims. Perhaps, he could not bear the thought of 111 days as a jail wife!*

*Doerty has now removed his guest book. A majority of those messages now appear on this page. Deleted messages include anonymous messages containing irrelevant material and messages subject to censorship by Doerty's court order not to publish the names of Council House directors, staff, and residents, now pending appeal.*

*Correspondents may send new messages to [Jiminy's Journal](#). Nmesis will publish them so that Doerty has an opportunity to read them. Messages appear in reverse chronological order according to receipt. If any particular correspondent wants his/her entry removed, changed, or corrected, then send an email message to [Message Change](#). The request must come from the same email address as the original message.*

Don't you think the background of your web page (the kids) is even a little bit creepy? I should know, marrying a nine-year-old.

Dr. Ivers, J. Doerty did not attend school here. If he had, he would not only understand the Constitution, he would be able to install a high quality muffler for his mouth.

I'd like to commend you for your support of common sense and Children's Rights. It is about time that True Citizens understand that the Bill of Rights was not meant for the undereducated and finance-challenged common dogs of the American landscape, but for you and I. You can be assured of my significant contribution to your current and future campaigns. Freedom of the Press (not speech, as so many ignorantly assume) is for those who have made an investment in our nation by building, purchasing, or otherwise committing themselves to professional publishing services - newspapers. This freedom extends, naturally, to political entities who would seek to further enrich America with their leadership, and to those of a pure bloodline. It was never meant for the average dog who can contaminate higher forms of discussion, even reaching international audiences, by sacrificing not even a few dollars. That Paul Trummel thought himself worthy of engaging in public discourse, in direct violation of your order, is laughable. Your order to detain him was right and came nowhere near violating the First Amendment rights claimed by so many of the dogs on your website. Do not listen to these dogs, as they incoherently howl in response to your prosaic ruling. I am disappointed, however, to hear that you've released Trummel, and will not further punish him for his foolish attempt to assert First Amendment protections. Please do the right thing - lock him up now! This may bring political pressure to bear, but should he refuse to remove himself from public discourse, you'll have any opportunity to do the right thing, and even the loudest dog can't interfere. But these dogs do bring pressure, the very reason for which they should be prohibited from public discourse, and they must be dealt with appropriately. Following the spirit of Freedom of Press, you should remove their comments from your web sites, and prohibit future discourse by unqualified dogs. Their whining and howling is offensive, and interferes in our system of justice, so your prohibition should also consider the possibility of detention. Should they refuse to be quiet, then public funds could be utilized for the creation of education and detainment camps. This may, of course, bring even greater howling, so I will defer to your judgement. But whatever you do, do not allow these ignorant and pathetic dogs to further intrude on the streets! I want to thank you again for your support of the American Way - as I said,

my significant contribution is forthcoming. With your leadership, we can build America into a pure nation so that those who've earned their freedom to speak will not be imposed upon in the future. With adoration and respect.

Give fascism a real chance: vote for "judge" Doerty. But don't let him know you are. You never know: he might "think" you are a not a journalist, and therefore have no First Amendment rights. Afraid to give it.

Judge Doerty, Your conduct in the Paul Trummel case simply boggles the mind. Your insistence on violating the fundamental free speech rights of this man raises concerns over your familiarity with America's constitutional protections for individual rights -- and even brings your integrity into question. Clearly, your actions have already brought you notoriety. I hope they also have some impact on your prospects for clinging to your office.

Seattle, WA. I attended court Monday in regard to Paul Trummel, and I have the highest praise for you. You have also I have the highest praise for you. You have also shown much compassion for the Seniors at Council House. Thank you so much for all your help in removing Paul Trummel

from Council House. This man has an imagination that runs wild. I've lived at Council House for about 14 years, and we never had the horrible happenings he describes on his Web site, and to think he his collecting funds from all these journalists is unreal. I guess that's one way to earn a living. You are cordially invited to visit us at Council House, and you can see for yourself what a lovely place this is. I finally got freedom of speech, and want to set the record straight. I just had my 86th birthday, and just learned the computer here as we have a computer room in the penthouse. I do look much younger as I keep very busy. That's an uncalled for remark, but it's true. Judge Doerty, you really belong in the Supreme Court, but I'm not sure you want to be there. I'll be back in court on Friday. I wouldn't want to miss it. Well, good luck. Hope the Press learns about The First Amendment, Freedom of Speech, and whatever else you can teach.

Scott Neil <trixiepixgraphics@usa.net>

Seattle. I, and many others, have deemed that Mr. Doerty's website is offensive. That Mr. Doerty continues to display his web site and disseminate his offensive material, despite the objections so conspicuously noted in this guest book, is, I contend, an act of criminal harassment perpetrated against the people of Washington State by Mr. Doerty. I thereby suggest that all who are offended by the material contained within the web of this site file a formal complaint with the King County Sheriff's office, or other appropriate law enforcement agency, citing the emotional distress endured by any offended viewer of this material. If law enforcement is unable or unwilling to act on behalf of the public sense of decency, the public, meaning anyone offended by this site, should immediately file for an anti-harassment order against Mr. Doerty, seeking to remove said offensive material from public view. Assuming such a restraining order is granted, and assuming Mr. Doerty refuses to comply with such an order, Mr. Doerty should be found in contempt of court and jailed until such time as Mr. Doerty removes his offensive material from public view. If Mr. Doerty's "subject" (victims) are not allowed to publicly disseminate their views and opinions, Mr. Doerty should be so restricted as well, and this site should be shut down. My God---hasn't ANYONE read "Animal Farm"?
